Summary

Computer Science Engineering student with a strong understanding of Python, C Programming, Data Structures Algorithms, and Data Analysis. Passionate about problem-solving, handling data, and learning new technologies related to AI ML. Attended technical training sessions in Python along with soft skills workshops, and continuously working on improving technical and analytical skills.

Skills

Technical Skills: C Programming, Python

Soft Skills: Teamwork, Adaptability, Time Management, Problem Solving

Education

B.Tech in Computer Science(AI & ML)

Present

Roorkee Institute Of Technology, Roorkee

Training

Python Training

May 2026

By Grant Thornton

- **Completion of 10 day training program on technical skills offered by Grant Thornton** covering basics of Python programming and dictionaries.

Soft Skill Training

December 2025

By Inlingua

- **A Soft Skills Training program for 2 months conducted by Inlingua** in my college, which helped me learn how to communicate effectively, speak publicly, build self-confidence, improve team skills, personality development, and ways to overcome stage fear.

DSA Training

May 2026

By GeeksForGeeks

- **Programming in C and DSA fundamentals learned through GeeksforGeeks trainings**, enhancing coding capabilities, logical reasoning, and problem-solving skills for programming and algorithms through consistent practice.

Projects

Food Donation Website | HTML, CSS, JavaScript

November 2025

- **Architected a web-based platform that connects food donors with NGOs** to help distribute food to needy people efficiently. The website helps reduce food wastage and supports social welfare by creating a simple donation and request system.
- Built features for food request management and donor coordination to improve accessibility and reduce food wastage.
- Applied problem-solving and web development skills to create a socially impactful real-world project.
- Proposed a digital solution inspired by the fact that nearly 40% of food produced globally is wasted while millions of people face hunger every day..

Awards & Certifications

- **RIT Hackathon Certificate – RIT (2025):** Completed 24 hours hackathon with working on a web development project along with my teammates.
- **GFG Training Completion Certificate – (2026):** Completed the Training that was held on RIT duration of 2 Months
- **Inlingua Soft Skill Training Completion Certificate - (2025):** Done 40 Hours Training session in Inlingua that was held on RIT
